Chalo Pandit Ji is the nation's largest aggregator of Pandit Ji's, offering personalized pooja services to devotees. It is a comprehensive site that offers services such as Pooja, Paath, Hawan, and astrology. Chalo Pandit Ji also conducts an astrological helpline during which he listens to the devotee's concerns and objectives and offers them thorough guidance and remedies. The subscriber can choose between a wide range of service packages depending on their preferences, which are customized to basically every individual's preferences.

Through many features, this application aims to simplify the process of yajmans hosting puja. We developed this app after understanding about the significant preparation that goes into any puja. Over time, our vision has evolved from simply booking a pandit for a puja to a massive scale that includes bhakti sangrah, a hindu library, prasad recipe, and many other things.
